

## EduGenie Demonstration of Proposed Features

|                      |                                             |
|----------------------|---------------------------------------------|
| <b>Date</b>          | 14 July 2026                                |
| <b>Team ID</b>       | XXXXXX                                      |
| <b>Project Name</b>  | EduGenie – AI-Powered Educational Assistant |
| <b>Maximum Marks</b> | 1 Mark                                      |

### Demonstration of Proposed Features:

This document captures all the features that were proposed during the EduGenie planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

| S.No | Feature Name                                      | Description                                                                               | Status (Implemented / Partial / Pending) | Demonstrated (Yes / No) | Remarks                                      |
|------|---------------------------------------------------|-------------------------------------------------------------------------------------------|------------------------------------------|-------------------------|----------------------------------------------|
| 1    | <b>Intelligent Question Answering</b>             | Answers student and learner questions across subjects with accurate, contextual responses | Implemented                              | Yes                     | Working successfully                         |
| 2    | <b>Simplified Concept Explanations</b>            | Breaks down complex topics into easy-to-understand explanations                           | Implemented                              | Yes                     | Adapts explanation depth to topic complexity |
| 3    | <b>AI-Powered Quiz Generation</b>                 | Generates topic-specific quiz questions for self-evaluation                               | Implemented                              | Yes                     | Dynamic questions generated per topic        |
| 4    | <b>Educational Text Summarization</b>             | Summarizes learning materials into concise, digestible notes                              | Implemented                              | Yes                     | Retains key concepts accurately              |
| 5    | <b>Personalized Learning Path Recommendations</b> | Generates structured roadmaps (beginner to advanced) with study recommendations           | Implemented                              | Yes                     | Progression guidance working as intended     |
| 6    | <b>Interactive and User-Friendly Interface</b>    | Responsive HTML/CSS interface with smooth user interaction                                | Implemented                              | Yes                     | Fully functional frontend                    |

### Feature Implementation Summary:

| Particular                      | Count |
|---------------------------------|-------|
| Total Features Proposed         | 6     |
| Total Features Implemented      | 6     |
| Total Features Demonstrated     | 6     |
| Overall Implementation Rate (%) | 100%  |
